

# Coding Challenge Week 4 Day 1

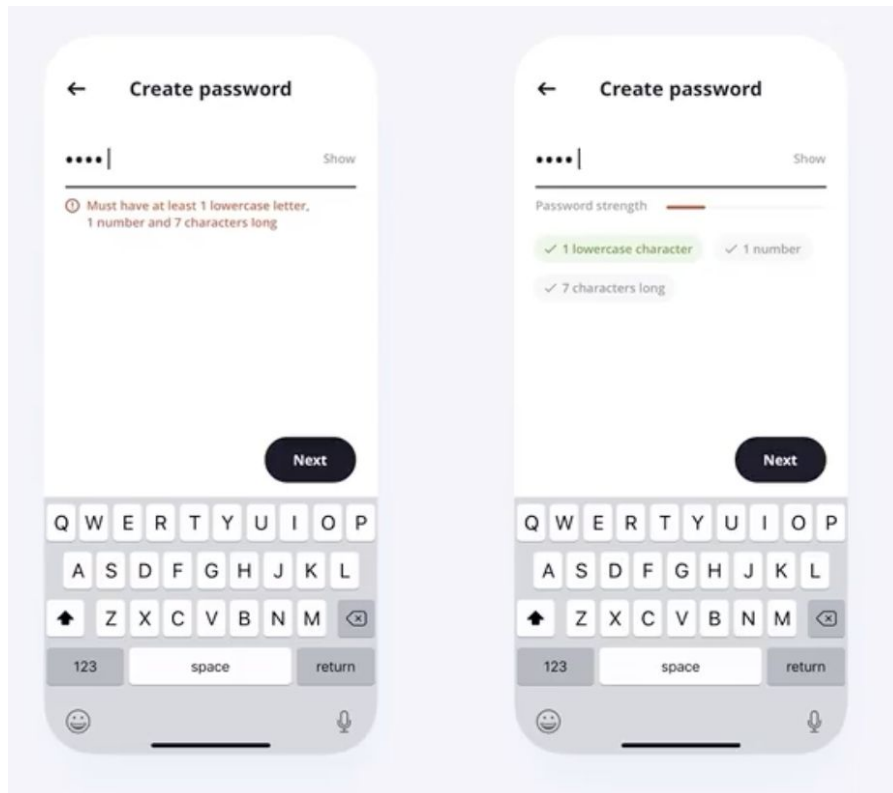

The following questions will help you to reason better in regards to User Experience. Create a document reporting these answers with a reason why. It is ok to get wrong answers, as that is the way how you will improve, also I have kept 5 images, 1 mark for each image, so you won't be losing much even if you had it all wrong. The best way to learn is to make mistakes so don't sweat it. Alright? Here we go.

## Question 1:

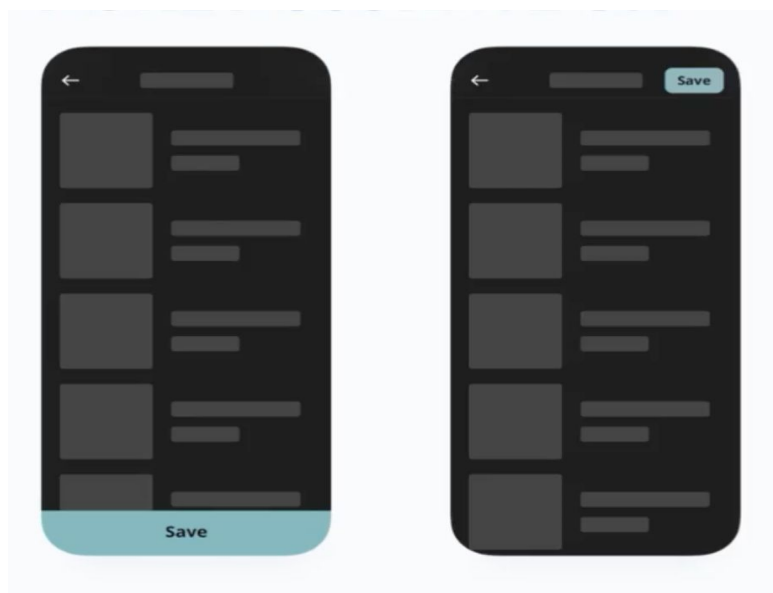

The image displays two side-by-side 'Sign In' forms, illustrating a design inconsistency. Both forms share the same layout and content: a title 'Sign In', a 'Username' field with the text 'superjohn', a 'Password' field with masked characters and a 'show' link, a 'Forgot?' link, a 'Remember me' checkbox, and a 'Sign In' button. The primary difference is the button style: the left form features a rectangular button with a dark background and white text, while the right form features a rounded button with a dark background and white text. This comparison is used to evaluate consistency in user interface design.

Hint: Look for consistency.

## Question 2:

## Question 3:

Hint: Analyse the pattern of the button and then come to a conclusion.

## Question 4:

The image shows two examples of a 'Tags' input field. The top example has the label 'Tags' and a 'clear' link. The input field contains the text 'ui ux login' with a magnifying glass icon on the left. The bottom example also has the label 'Tags' and a 'clear' link. The input field contains three tags: 'ui', 'ux', and 'login', each with a small 'x' icon to its right for removal. A magnifying glass icon is on the left of the input field.

Hint: Look for better readability.

## Question 5:

The image shows two examples of a gender selection UI. The left example has a title 'Which UX is more accurate?' and a label 'Select you gender'. It features two radio buttons: 'Male' (selected) and 'Female'. The right example has the same title and label, but the label is followed by a dropdown arrow. Below the dropdown, the options 'Male' and 'Female' are listed.

Hint: Ask yourself which would make the most sense.
